

Learn How Robotics Work!

Students work in small groups to design, build, and program LEGO® robots during this afterschool program.

Learn How Robotics Help People!

Every day, time is set aside to learn about engineering and robotics. Find out how engineers work to **solve problems** and **help people** in day-to-day living.

Engineers work in all kinds of fields, including health care, manufacturing, transportation, product design—there are even Ketchup Engineers!

Come learn exciting things that YOU could build!

LEGO® is a registered trademark of the LEGO Group and is not affiliated with Maine Robotics.
